

Application for a Network Support Role at Globant

From: Habid David Acuna - habid8374@gmail.com

To: careers@globant.com

Date: June 14th, two thousand twenty-five

Dear Hiring Manager,

I hope this message finds you well. I am writing to express my interest in a network support opportunity at Globant. With a solid foundation in telecommunications and IT systems, I bring experience in managing, securing, and optimizing network environments across multiple industries.

I have led structured cabling installations and deployed network infrastructure for corporate clients. I have provided both remote and on-site user support, ensuring efficient issue resolution. I have configured VPNs, firewalls, and routing protocols to maintain system integrity. I have documented technical processes and trained personnel to ensure proper system use. I have worked with cross-functional teams since two thousand twenty-one to design reliable and scalable networks.

Since early two thousand twenty-two, I have ensured uptime and performance for customer networks. Since completing my technical certification, I have enforced security best practices to safeguard data. Since joining my previous team, I have improved incident response and user satisfaction. Since collaborating on remote projects, I have enhanced my ability to communicate and coordinate effectively. Since starting my IT career, I have remained committed to growth and excellence.

I can diagnose and resolve complex network issues under pressure. I can deploy automation tools like Ansible and Python to streamline operations. I can quickly adapt to evolving technologies and

environments. I can communicate clearly with both technical and business stakeholders. I can ensure full compliance with IT policies and security standards.

Thank you very much for your time and consideration. I would welcome the opportunity to contribute my skills to your team. I look forward to the possibility of discussing how I can support your mission at Globant.

Yours sincerely,

Habid David Acuna Oquendo
